REPORT OF THE TOWN HISTORY COMMITTEE.

During the past year work has been continued by the Town Historian in the manner indicated in the last report of the Committee. A large amount of material has been gathered and much of it will be in readiness for the press within a few months. The idea has been from the first to give as complete a record as possible of families who were concerned in the settlement of the town or identified with early development. With regard to families now represented here the endeavor will be to present a fair account of each, *so far as they furnish the data for so doing*. This is believed to be more for the interest of all than to devote a large space to a few families and allow slight notice of the remainder.

If the work is to be pushed to its conclusion a sum of money about the same as that appropriated last year will be necessary for current expenses. The cost of publishing, when that is undertaken, will be considerable. The committee is confident that much of the money so expended will be returned from sales of the History when completed, so that the final expense to the town will be comparatively light.
